Other Speakers Include

Denise Bellinger, PhD ✧ Alexis D. Abernethy, PhD ✧ Lee Berk, DrPH ✧ Sheryl Tyson, PhD, RN, PMHCNS
Douglas C. Nies, PhD ✧ Jack Yu, MD ✧ Sally Shaw, DrPH ✧ Bruce Nelson, MA ✧ Alice Parsons-Zulli, FT, BCPC

Who Should Attend...

Healthcare Administrators ✧ Clergy
✧ Chaplains ✧ Nurses ✧ Psychologists
Social Workers ✧ Educators
Therapists ✧ Counselors ✧ Physicians
Criminal Justice Workers

Continuing Education

Please call for information about continuing education hours that will be available for a variety of disciplines, up to 32 hours for the full event.

A Multidisciplinary Approach

Purpose:

In this dynamic conference with many practical learning activities and workshops, explore how the significant accumulation of spirituality and health research over the last 25+ years translates into useful applications for healthcare and other human services providers. Participants work with leaders in the field to integrate significant findings from spirituality and health research into clinical practice, including medical practice, psychology, sociology, and education.

Goals:

Participants from different backgrounds will develop both a broad vision of the role that spirituality plays as a health or mental health determinant and also specific applications that they can implement into their own practice, discipline, and workplace. To achieve this goal, teams will form on Monday, continue to work in mentored settings at designated times throughout the week, and then report back their accomplishments on Friday.
