9. Woodward, J. (1998). Abstract: A study of the role of the Health Care Chaplain in England. Retrieved from <http://jameswoodward.sdnnet.co.uk/phdabstract.html>.

	Purpose of study	Methodology	Does the study present a chaplain's reflections on their role?
1.	To understand the role and self-understandings of minority faith chaplains	Observations and semi-structured interviews	Yes
2.	A quality improvement project	Staff survey, education program, audit of the allocation of chaplains' time	No
3.	To analyze chaplains' records of chaplains visits	Data analysis on chaplains records of encounters	No
4.	To audit a hospice chaplaincy service against national standards	Survey and reviewing chaplains' notes	No
5.	To develop a taxonomy of chaplaincy activities	Literature review, retrospective chart review, focus groups, self-observation, experience sampling, concept mapping and reliability testing	Yes
6.	To analyze which patient groups were visited by chaplains	Review of records of visits	No
7.	To explore the role of chaplaincy in a national context	Structured interviews with chaplains	Yes
8.	To analyze referrals to chaplains over a two year period	Analysis of referrals	No
9.	To understand the work of chaplains in England	Review of empirical body of work about chaplains' experiences	Yes
